

CRAFT Workshop Series Presents...

# FINTECH IN 2040

## WHO

Leading voices in finance and technology: CRAFT Leadership, members of the CRAFT Industry Advisory Board, industry innovators, established financial institutions, regulators, startups, and top researchers shaping the future of fintech.

## WHAT

Networking lunch followed by an interactive workshop featuring forward-thinking discussions with experts across finance and technology — building a collective vision for the future of fintech research.

## WHEN

Friday, June 6, 2025 | 12-3 P.M.

## WHERE

**Bank of America NYC HQ**  
**Hudson Room at the Pavilion Conference Center**  
**Enter at Grace Plaza**  
42 W 43rd St. (SE Corner of 6th Ave and 43rd St.)  
New York, NY 10036

## WHY

To drive discovery, shape groundbreaking research, and collaborate on crafting the future of financial technology — together. A white paper on the future of the fintech industry will be developed based on the workshop and shared with all participants. Contributors will be acknowledged for their input.

*CRAFT is the first NSF-funded Industry–University Cooperative Research Center (IUCRC) focused on fintech. Through close collaboration between academic institutions and industry partners, CRAFT develops innovative solutions in areas such as artificial intelligence, decentralized finance, language AI, and quantum finance. The center also advances efforts to secure financial data, design and evaluate more equitable trading platforms, inform regulatory policy, and enhance market simulation and stress-testing tools that promote financial system stability and resilience.*

**RSVP HERE**  
In-Person Only
