

# A UNIVERSITY ON THE RISE

UNDERGRADUATE ENROLLMENT AND STUDENT SUCCESS • WINTER 2019

## RISING DEMAND

**D**emand for a Stevens education continues to grow and is now at an all-time high, concurrent with a dramatic increase in the academic profile of enrolled students and in the growth of students from underserved communities. Stevens' rigorous technology-infused education that emphasizes experiential learning, coupled with a solid student support structure, consistently produces graduates with enormous potential.

Undergraduate Application Growth **+157%**  
2011-2018

First-Time, Full-Time Freshmen **+81%**  
2011-2018

Percent of underrepresented minorities participating in pre-college summer programs

Percent of underrepresented minorities in the freshman cohort

## INCREASING ACCESS

**N**ew initiatives such as Stevens ACES (Accessing Careers in Engineering and Science) and the A. James Clark Scholars program have significantly improved access to a Stevens education for underserved and underrepresented minority students. From 2011 to 2018, the participation of these groups increased 679% in Stevens' pre-college summer programs and 154% in the freshman cohort.

# REMARKABLE OUTCOMES FOR THE CLASS OF 2018

Undergraduate research, entrepreneurship coursework, cooperative education, internships, and extensive community service activities distinguish the Stevens undergraduate experience. More than 1,000 companies — and more than 90 of the nation's Fortune 500 — recruit at Stevens. Business, arts, and humanities graduates are just as successful in the job market as STEM graduates, due to the heavy emphasis on technology throughout all programs.

**\$71,400**  
Average Starting Salary, Class of 2018

Six-Year Graduation Rate

## SIGNIFICANT RETURN ON INVESTMENT

With an 87% graduation rate, a career-fueling educational experience, some of the nation's highest starting and mid-career salaries, and a loan default rate significantly lower than the national average, Stevens helps students realize a robust return on their education investment. In addition, Stevens is one of only three schools in the nation where the salaries of women graduates exceed those of male graduates.
