Early Registration Open Until: **July 15, 2024**

Regular Registration: **July 15-October 21, 2024**

Discussion/Extended Abstract Registration: Flat Fee Registration Regardless of Date

MAIN CONFERENCE: Oct. 22-23, 2024

Since 1995, the IEEE Symposium on Computational Intelligence for Financial Engineering and Economics (CIFEr) has been a leading forum for research and applications of Computational Intelligence in Business, Finance and Economics. The financial services industry is presently undergoing considerable change due to the development of new technologically focused products and services. The understanding of these innovations requires multidisciplinary approaches from the perspective of industry, societal and government policies. The upcoming CIFEr 2024 will be co-hosted by the Center for Research toward Advancing Financial Technologies (CRAFT) funded by the U.S. National Science Foundation in the New York Metropolitan area.

FEATURING SPEAKERS SUCH AS:

Agostino Capponi
Professor of Industrial Engineering
and Operations Research,
Director of the Center for Digital
Finance and Technologies

Andrei Kirilenko
Professor of Finance,
Director of the Cambridge Center
for Finance, Technology & Regulation,
