

# Parent Expectation and Agreement Form

The Dual Enrollment program at Stevens Institute of Technology enables high school students to earn college credits prior to high school graduation. We welcome all students however high school administrator approval is required. All courses will transfer into a program at Stevens. Students interested in attending other colleges/universities are encouraged to contact those institutions directly for additional information about how these courses will transfer to those institutions.

Students should be performing satisfactorily in their high school curriculum, possess advanced academic skills, and should demonstrate the maturity level needed to be successful in college-level coursework.

Dual Enrollment college courses are designed to challenge students by exposing them to a college curriculum. The intent of the Dual Enrollment program is to provide educational enrichment opportunities for a limited number of eligible high school students, and to help ensure a smoother transition from high school to college by providing them with greater exposure to the collegiate atmosphere.

Students are typically successful in these programs if they are responsible, task oriented, proficient readers, and capable of effectively managing their time. Students are expected to complete assignments in and outside of the classroom.

Motivation is key to being successful in these rigorous courses. Students should be able to deal maturely with sophisticated concepts and to persevere in the face of a challenge. The decision to take a Dual Enrollment college courses is extremely important because the courses, grades, and credit hours will permanent on the Steven's non-degree transcript.

Parents and students should consider goals, maturity, responsibility, and academic ability levels prior to enrolling in a dual enrollment program.

Students are protected by FERPA. Please see Stevens policy regarding FERPA at
