March 8, 2022

To Faculty, Staff and Students:

I am delighted to announce that Stevens Institute of Technology received the prestigious 2022 Active Minds Healthy Campus Award, which recognizes Stevens as “one of the healthiest college campuses in the nation.” [Active Minds](#) is a leader in its support of mental health awareness and education for young adults.

This award is a wonderful acknowledgment of our community-wide efforts to prioritize and promote student wellness, mental health and safety. Stevens was selected by a panel of researchers and experts in health and higher education, following a rigorous and extensive application process.

I extend my gratitude and congratulations to members of the President’s Mental Health Task Force and the Stevens Wellness Team in CAPS, Student Health Services, Disability Services, Wellness Education and the Dean of Students, led by Assistant Vice President for Student Affairs Sara Klein.

I invite you to read more about this recognition on [our website](#). Thank you to all who have contributed to Stevens’ progress and to this proud moment.

Per aspera ad astra,

Nariman Farvardin
President
