Please print or type. The primary purpose of this form is to lay out the courses required to complete your degree program and when you expect to take each of them. You may then use it to track your own progress to the degree. You should revise it as needed. Please indicate the term when you expect to take each course (e.g., 2013F, 2014S, etc.). Roman numerals indicate the standard curriculum time schedule. If a choice of course is given for the requirement, circle the appropriate course number. For electives, fill in the course number. Any course taken elsewhere should be marked TR. An additional study plan will be required if any of you wish to receive a minor or a second degree.

Science Communication Study Plan Notes

1. Non-Major Humanities Requirement – Students must take HHS 130, HST 120, HLI 220, HPL 112 and two additional humanities in another CAL discipline outside of the student’s major field.

2. All Science Communication students are required to take four courses within Computer Science, Science and Math. Students may choose from CS 105, CS 115, or HAR 271 to fulfill the computer science requirement. Students can choose any 3 credit science or math course to fulfill the science and math requirement.

3. STS Humanities Core: HPL 111, HPL 112, HLI 220, HHS 141, HSS 175

4. General Electives – chosen by the student – can be any approved 3 or 4 credit course used towards a minor, major concentration, research, independent study, language courses, or a course taken during an international experience. For a complete list of courses that satisfy Global and Environmental electives, please meet with your faculty advisor.

5. Please see below the revised list of courses that satisfy the Science Communication Major. Students can also choose to fulfill this requirement by taking certain math, science, and business courses offered by the School of Business and the School of Engineering and Science. Students may choose these courses as long as they have taken the prerequisites required, if any, and the courses are not being counted to fulfill other requirements such as the Science, Math, or CS electives or are being counted towards requirements for other degrees. See below for the complete list of science, math and business courses.

6. Secondary Concentration: This can be chosen from all disciplines offered at Stevens upon consultation with your faculty advisor.
