

# STEVENS

## SUSTAINABILITY NEWSLETTER

VOL 2. ISSUE 2

### LEED CERTIFICATION

Stevens has two LEED Gold buildings: UCC and Gateway.

LEED is a rating system that assesses the sustainability of buildings. By achieving LEED Gold status, Stevens shows its commitment to reducing our ecological footprint, restoring water sources, promoting the use of sustainable materials, and enhancing the community's quality of life.

The buildings' advanced air filtration systems, water-efficient technologies, and energy-efficient lighting implementations have been instrumental in attaining LEED Gold.

### DONATIONS

Donate instead of throwing away!

- Donate your used books at Symposia
- Bring clothes to St. Mary Advocate Thrift Store
- Drop off your worn-out clothes at one of the textile recycling bins in Hoboken

### CITIES FORWARD PROGRAM

Hoboken is one of 24 cities across the Americas to be part of the Cities Forward program. The program's mission is to establish sustainable and inclusive communities through project consultation and diplomatic engagement. The program is supported by the U.S. Department of State and ICLEI-Local Governments for Sustainability.
