December 6, 2023

To All Faculty, Staff and Students:

We are pleased to announce that Dr. Ying Wang, Associate Professor in the School of Systems and Enterprises, has been selected to receive the Tom Ode Richardson Faculty Fellowship.

The Tom Ode Richardson Faculty Fellowship, previously known as the Stevens Presidential Fellowship, recognizes a faculty member's achievements in research and their potential for future contributions and impact.

Dr. Wang has been at Stevens since 2021. Her primary research interests are cybersecurity, wireless communications and health-related artificial intelligence. Since joining Stevens, Dr. Wang has received research funding from DARPA, the Department of Defense and the Defense Logistics Agency. She recently received an \$854,844 DARPA grant for her study of "5G Causality, Formal Reasoning and Resilience." Dr. Wang is the co-holder of four U.S. patents. She is also an affiliated faculty member at the Stevens Institute for Artificial Intelligence (SIAI).

The Richardson Fellowship is named for Thomas Ode Richardson, grandson of Randolph T. Ode. Randolph T. Ode graduated from Stevens in 1898 with a degree in mechanical engineering. Mr. Ode's pride in Stevens inspired his grandson this year to establish an endowed fellowship fund in support of faculty.

Please join us in congratulating Dr. Wang.

*Per aspera ad astra,*

Nariman Farvardin  
President

Jianmin Qu  
Senior Vice President for Academic Affairs and  
Provost
